**KIPP**

**Security Systems and Audio/Video  
Presentation Systems**

**For the past 35 years KIPP has been providing companies with the leading edge in the design and engineering of security systems and audio/video presentation systems technology.**

**KIPP. One complete source for the tools to communicate.**

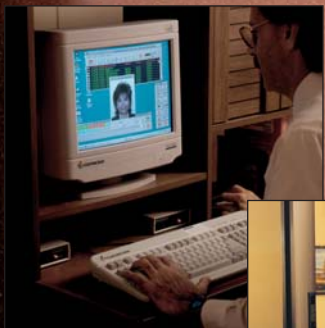

# *KIPP provides only the best in products and services*

## *Commercial Security – a necessity for every business*

- access control
- employee identification
- intruder detection and identification
- surveillance digital video
- asset tracking
- infant monitoring for hospitals

*KIPP's experienced professionals will analyze your security needs and create a practical, manageable system.*

## *Presentation Systems – a necessity for doing business*

- LCD and plasma displays
- broadcast and professional video systems
- digital technology
- control systems
- camera and duplication systems
- PA and sound systems

*Whether your venue is a boardroom, church, school, health club, medical facility, or a tourist location, KIPP has the experience to make the technology work.*

## *Digital Signage – a modern advertising medium*

- influence decisions
- involve your audience with up-to-the-minute promotions
- enhance their experience

*Engage your audience with controlled electronic posters that use motion, vivid graphics, special effects, and sound. Digital signage is easily updated and managed remotely from one location.*

*Internet, TV, radio, and print... all are competing for attention. Go mainstream with Digital Signage.*
